

NoMorePly[®]

The **Ultimate** Surface

Product Overview & Technical Data

The NoMorePly[®] Fibre Cement TCT Jigsaw Blade is the perfect additive for your toolbox and made from extremely durable, high carbide technology. Typically cutting round pipes and awkward shapes on fibre cement boards has been done using tile nipper, but with the NoMorePly[®] Fibre Cement TCT Jigsaw Blade you can get a perfect cut our NoMorePly boards up to 22mm thick.

It really is the faster, cleaner, and less dusty way to cut your fibre cement No More Ply tile backing boards.

As well as NoMorePly board these blades are also suitable for Glass Fibre Reinforced Plastics(5-20mm), Plasterboard and Fibre Cement Boards(5-50mm).
